The Coastal Bend Hurricane Conference is co-sponsored by the Coastal Bend Emergency Management Association and Nueces County. Our goal is to provide a quality training and networking opportunity that is not cost prohibitive for preparedness professionals. We cannot thank our community sponsors enough! These very important financial contributions help keep the cost for each attendee reasonable. If you cannot attend due to conference fee, please email us to be considered for a scholarship.

Persons with disabilities who plan to attend the conference, and who may need assistance, services or auxiliary aids, should contact us by April 26, 2024, so that appropriate arrangements can be made.
